

## Why KLEANZ?

### It's Simple

KLEANZ is an electronic Food Safety and Sanitation Management system that keeps data collection, record keeping, reporting, and tracking simple. KLEANZ can be used right on the plant floor with KLEANZ Mobile. This paperless option gives employees the freedom to perform inspections, schedule and log work tasks, and record any non-conformances in real-time. The KLEANZ desktop application is a repository for all Food Safety documentation and can trend data into actionable information.

- Paperless Option
- Information in Real Time
- Electronic Data Collection

### It's Complete

KLEANZ is a highly configurable tool that keeps everything affecting Food Safety in one place. Eliminating siloed information across departments adds transparency to operations that rely on immediate, accurate information for audits, resource planning, and effective decision making. KLEANZ can interface with other systems and aggregate trended information into Corporate Dashboards that align with KPIs (Key Performance Indicators).

- Audit Ready Every Day
- Corporate Oversight
- KPI Tracking
- Resource Planning
- Interfaces to other systems
- Supported 24/7/365 Live by Experience Food Safety Professionals

### It's Verification & Validation

KLEANZ is a data collection tool that allows facilities to allocate resources based on trends of labor hours, inspection results, and corrective actions. In-depth data collection helps facilities verify that all work is complete or planned to be completed. KLEANZ management tools like MSS scheduling and training records validate that all work is appropriate and correct.

- Labor Management
- MSS Scheduling
- Inspections & Self Audits
- Allergen Change Overs
- Training
- CARs

## It's Execution

KLEANZ is the only complete Food Safety and Sanitation Management solution. KLEANZ is the industry preferred tool for executing your organization's Food Safety plan. Use KLEANZ to accomplish your Food Safety and Sanitation goals.

- Continuous Improvement
- Risk Mitigation
- Costs & Budgeting

## It's Management

Whether you have one facility or a hundred, use KLEANZ to manage and maintain your organization's Food Safety & Sanitation. KLEANZ provides true transparency - and empowers you to track trends, mitigate risk, and continuously improve.

- Reports & Dashboards
- Automated SMS and Email Notification
