KLEANZ One Place in Real-Time

What does it really mean to your Company?

*Planning - **Execution** - Measurement*

In order to provide effective Food Safety, information must be shared and used to make meaningful decisions. KLEANZ eliminates documentation gaps:

- All Departments' Food Safety Functions
  - Tactical – The day-to-day sanitation efforts. What was done, what is being done, what is about to be done.
  - Operational – The ongoing status of Food Safety. What are the KPIs? What resources are needed and how have they been used?
  - Strategic – The trending information needed for making valuable decisions such as budgeting and deployment of resources.
- "On the Floor" Real Time Data Collection
- Corporate Level Reporting

Use KLEANZ to Track, Trend, Verify, and Validate Everything Food Safety.
