## Nexcor Food Safety Technologies enters strategic collaboration with 3M and Charm Sciences Inc to support clients with Swab-Mapping technology

**Buford, Georgia – December 1, 2020** – Nexcor Food Safety Technologies, Inc. (Nexcor) has joined forces with 3M and Charm Sciences, Inc (Charm) to deliver Swab-Mapping technology to food and beverage manufacturers across the globe.

Using Nexcor’s KLEANZ Food Safety Compliance and Sanitation Management system (KLEANZ), 3M™ Quick Swabs technology, and Charm’s ATP swabbing technology (Charm PocketSwab Plus, WaterGiene, AllerGiene, FieldSwab, Peel Plate, and E\*Colite), this partnership is intended to provide significantly enhanced food safety, sanitation, and hygiene experiences in the Food and Beverage manufacturing industry. Expected outcomes are to help Nexcor’s clients validate, verify, and simplify their food safety program using the new KLEANZ Swab-Mapping feature. These improvements are expected to deliver critical financial and operational benefits to the clients of Nexcor, 3M, and Charm.

“There is an enormous opportunity for us to help our clients to mitigate risk, increase efficiency, and save money. With the combined knowledge of our teams, we will accelerate our clients’ corporate initiatives and drive higher levels of insights for more informed decision-making.”, said Robert Burgh, President of Nexcor.

This collaboration solidifies Nexcor’s relationships with both 3M and Charm. As leading organizations and technology solution providers for food and beverage manufacturers, Nexcor, 3M, and Charm make it easier for clients to integrate their food safety, sanitation, and hygiene swabbing programs into KLEANZ.

### **About Nexcor Food Safety Technologies, Inc:**

Nexcor Food Safety Technologies, Inc was founded in 1983 with the creation of the maintenance management software, CAMS-PM, specifically designed for food and beverage manufacturers. The award winning, flagship product led the way for a collaboration with AIB and the launch of KLEANZ Food Safety and Sanitation Management. KLEANZ has had substantial popularity and success in the food manufacturing industry boasting clients of all sizes and types. KLEANZ and CAMS-PM continue to innovate the industry and have extensive offerings that fall under the newly developed KLEANZ Family of Services.
