

KLEANZ

What is KLEANZ?

The KLEANZ Family of Products is designed to provide:

- Everything Food Safety in One-Place in Real-Time.
 - o Corporate Level Reporting and Oversight
 - o Facility Food Safety Compliance and Sanitation Management
 - o Continuous Improvement of Food Safety and Sanitation

What does it really mean to your company?

Protecting your customers and brand is simple with the KLEANZ Food Safety Compliance Solution.

- A Single Repository for the facility's Food Safety Compliance and Sanitation Management
 - o KLEANZ is designed to help mitigate a company's food safety risk.
 - o KLEANZ eliminates the siloed information. (Information that remains in one department but is useful to many.)
 - o Food Safety is not limited to a single department within a facility or company.

Audit Ready Every Day

For effective food safety, information must be shared to make meaningful decisions.

- Real Time Data Collection and Capture on the Plant Floor
- Eliminating the Documentation Gaps
- Corporate Level Reporting
- Food Safety Functions in One Place Across all Departments
 - o Tactical – The day to day sanitation efforts. What was done, what is being done, what is about to be done.
 - o Operational – The ongoing status of food safety. What are the KPIs? What resources are needed and how have they been used?
 - o Strategic – The trending information needed to make valuable decisions like budgeting and resource deployment.

KLEANZ Functional Pillars

KLEANZ has extensive risk mitigating functionality by tracking and trending data that is summarized in three Food Safety goals.

- Verify the Work Performed
- Validate that Work Performed is Appropriate
- Manage Resources

Everything Food Safety in One Place in Real-Time.

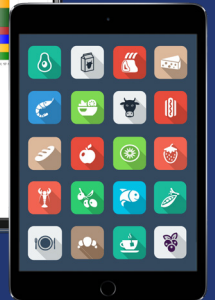

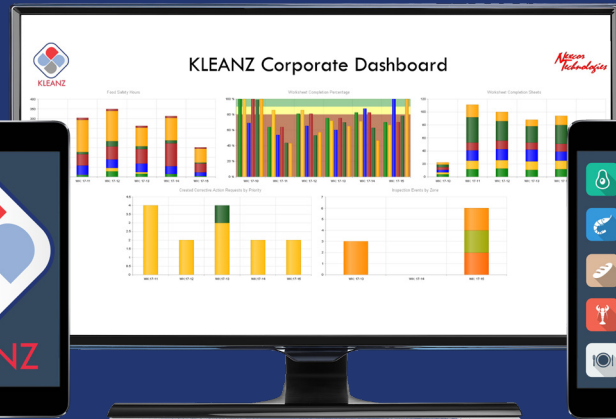

Nexcor Food Safety Technologies

We are proud to be the leader in software and services for the Food, Beverage, Packaging, and Pharma industries. For over 30 years, we have ensured that our clients' Food Safety, Sanitation Management, and Maintenance needs are satisfied and streamlined.
